

Aubrey Kuehnel, DO

Born and raised in Michigan, attended Michigan State University College of Osteopathic Medicine and subsequently completed Neurology Residency in Warren, Michigan. During residency, quickly appreciated the crossover between the importance of sleep and many neurological disorders. After graduation, pursued Sleep Medicine fellowship at Dartmouth-Hitchcock Medical Center. Quickly returned back to Michigan, moving to the west side of state to practice with University of Michigan Health-West, joining a well-rounded team with a sole focus on sleep medicine. Out side of work, enjoy playing with my puppy and watching old British comedies.
