## COUNCIL OF INTERNS AND RESIDENTS REPORT

Peter Habib, DO, CIR Chair

The MOA's Council of Interns and Residents continues to be the voice of interns and residents across the state. Over the past year the Council remained focused on expanding its reach to students and residents. For the first time the CIR hosted a social event in conjunction with a Detroit Tiger's baseball game in August 2021. This was a fun and engaging way for residents and students to network and give feedback to CIR leadership.

The Council's main project this year was continuing their virtual discussion series. Series topics have centered around the "Seasons of Change" theme which has highlighted different stages throughout a young doctor's career and how to navigate them. Each session has been broadcasted live online via Zoom and some recordings are available to view on the MOA website. The series has proven to be an efficient way to engage with interns, residents, and students, and has created membership value for the younger members of the MOA. The Council has also been working on their Task Force for Residency Improvement of Training Environments (RITE).
