

Michigan Osteopathic Association

Women of Excellence Committee

The sixth annual Women of Excellence Award was presented virtually during the MOA's 2021 Spring Convention to Mary Jo Voelpel, DO. The Women's Leadership Institute launch is planned for the MOA Spring Conference in 2022. Over the past year the Committee met monthly to continue developing the program and expectations of the institute. The purpose of the institute is to engage female osteopathic physicians and provide them with the tools they need to foster both a positive and successful professional and personal life. The institute will provide online and live CME, leadership training and resources, as well as mentorship. To aid the launching of the institute, the Committee applied to the AAOA's Special Projects Fund and received a grant for \$2,750.
