Council Of Interns & Residents Report

Miles Medina, DO, CIR Chair

The MOA's Council of Interns and Residents continues to be the voice of interns and residents across the state within the MOA and beyond. This year the Council focused on making themselves and what they have to offer known to interns, residents and students. They have reached out to young MOA members across the state and have brainstormed many new ways the MOA can be more beneficial to them. They have partnered with the Membership Committee on the Spring Sponsorship program by providing funds and nominating residents.

The Council will host a contract writing workshop with MOA business partner, Kerr Russell, and they will participate in a resident panel at the 2020 MOA Spring Convention. They are hoping these events will prove to be an efficient way to engage with interns, residents and students, and create value for the younger members of the MOA.
