

Michigan Osteopathic Association

Council of Past Presidents

Gerald Robbins, DO, FACN, Chair

John Everett, DO, Secretary

The MOA Council of Past Presidents continues to meet annually at The MOA Spring Scientific Convention in May. It is our mission to leave the legacy of osteopathic leadership, knowledge and experiences to the future osteopathic leaders to utilize and build upon. The Council is available to give support to the MOA, MSUCOM and the osteopathic profession in the State of Michigan. There are 20+ past MOA presidents participating in the Council.

The Council started a Past Presidents Endowment Fund for student scholarships which selects an MSUCOM student each year who has met high academic standards and exhibits leadership qualities. Multiple Past Presidents continue to make annual contributions and strongly encourage all members to give.

The Council maintains an open avenue of communication with the MOA Board of Trustees and the Dean of MSUCOM. We have also sent out a questionnaire to the MOA Senior members asking what services they can provide. It is the Past Presidents pleasure to continue to serve the MOA, it's membership, MSUCOM and the entire Michigan Osteopathic Profession.
