

Michigan Osteopathic Association

Women of Excellence Committee

Rachel Young, DO

The fourth annual Women of Excellence Award reception was held at the MOA's 2019 Spring Convention. There was an excellent turnout and the event continues to grow in popularity. Over the past year the Committee has met several times to develop the MOA Women's Leadership Institute. The purpose of the institute is to engage female osteopathic physicians and provide them with the tools they need to foster a positive, successful professional and personal life. The Women of Excellence plan to host a speaker and have a networking event at both the Spring and Autumn Conventions in 2020.
