

STUDENT LIAISON COMMITTEE

FAQ's

What is the Michigan Osteopathic Association?

The MOA is YOUR state association! MOA represents more than 7,000 osteopathic physicians and medical students. Learn more at DOMOA.org.

What does the MOA D.O. for you?

- Educates through continuing medical education (CME) programs
- Advocates for osteopathic physicians and positive health care legislation
- Communicates through the email newsletter, the quarterly magazine (TRIAD), social media (Facebook & Twitter) and website (www.DOMOA.org).

What are student benefits of membership?

In addition to the benefits listed above, students enjoy several more targeted benefits of membership:

- The MOA hosts free luncheon and dinner lectures throughout the year
- Attend the free MOA Student Program and Reception at the Annual Spring Scientific Convention in May
- One of the most prestigious awards for MSUCOM students is the MOA Outstanding Graduating Senior Award, presented with a monetary award to one student each year at commencement

Apply to serve as a MOA/MSUCOM Student Representative!

As a student representative, you attend and assist with promoting all MOA-hosted events. You are also invited to exclusive networking opportunities with the MOA Board of Trustees.

Learn more about the MOA and the MOA Student Liaison Committee, view current representatives and apply to be a student representative by visiting DOMOA.org/MedicalStudents.

APPLICATION DEADLINE: Monday, October 8, 2018.

Interviews, if selected, will be held at each campus on Thursday, October 11, starting at 5:15 pm. Please direct questions to a student representative or Terry Trombley, MOA Administrative Assistant at ttrombley@domoa.org or 800-657-1556.

The MOA Student Liaison Committee is dedicated to communicating student needs and planning outstanding events to keep students in osteopathic programs across the state connected with the MOA and each other. The committee includes student representatives from all three Michigan State University College of Osteopathic Medicine campuses (East Lansing, Detroit Medical Center and Macomb University Center).
